

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application.

Listing of Claims:

1. (previously presented) A method for remotely ordering image products or services by a customer with respect to digitally stored images, comprising the steps of:

obtaining a digital file of at least one image;

storing said digital file in a memory device and associating an order number that identifies said digital file;

facilitating viewing of the images and associated order number by said customer prior to ordering image products with respect to said at least one image;

facilitating remote electronically ordering an image product or service by said customer with respect to said at least one image over a communication network using said order number.

2. (original) A method according to claim 1 further comprising the steps of :

providing said image product or service to a party designated by said customer.

3. (original) A method according to claim 1 wherein said electronic ordering is accomplished by entering said order using a device capable of providing electronic communication over said communication network.

4. (original) A method according to claim 3 wherein said device is a touch pad.

5. (original) A method according to claim 4 wherein said device is a phone.

6. (original) A method according to claim 5 wherein a touch pad is used on said phone.

7. (original) A method according to claim 1 wherein said image product comprises a photographic print.

8. (original) A method according to claim 1 wherein said obtaining said digital file comprises scanning a photographic media.

9. (original) A method according to claim 1 wherein said electronic ordering comprises ordering by voice.

10. (original) A method according to claim 1 wherein said digital file is obtained by scanning a photographic film.

11. (original) A method according to claim 1 wherein said at least one image comprises a series of images.

12. (original) A method according to claim 11 wherein said series of images and said order number are printed on an index print.

13. (currently amended) A method according to claim [1] 12 wherein said order number identifies the digital file of said index print.

14. (original) A method according to claim 1 further including the step of verifying the address and credit card number of the customer ordering said image product or service.

15. (original) A method according to claim 11 wherein the images are scanned in a first location and transferred to a second location for storage.

16. (previously presented) A method for remotely ordering image products or services by a customer with respect to digitally stored images, comprising the steps of:

obtaining a digital file of at least one image;

storing said digital file in a memory device and associating an order number that identifies said digital file;
facilitating providing of said order number to said customer;
facilitating electronically ordering an image product or service by said customer with respect to said at least one image over a communication network using said order number by a customer for delivery to a party designated by said customer;
providing said image product or service to said designated party.

17. (original) A method according to claim 16 wherein said electronic ordering is accomplished by entering said order using a device capable of providing electronic communication over said communication network.

18. (original) A method according to claim 17 wherein said device is a touch pad.

19. (original) A method according to claim 18 wherein said device is a phone.

20. (original) A method according to claim 19 wherein a touch pad is used on said phone.

21. (original) A method according to claim 16 wherein said image product comprises a photographic print.

22. (original) A method according to claim 16 wherein said obtaining said digital file comprises scanning a photographic media.

23. (original) A method according to claim 16 wherein said electronic ordering comprises ordering by voice.

24. (original) A method according to claim 16 wherein said digital file is obtained by scanning a photographic film.

25. (original) A method according to claim 16 wherein said at least one image comprises a series of images.

26. (original) A method according to claim 25 wherein said series of images and said order number are printed on an index print.

27. (original) A method according to claim 26 wherein said order number identifies the digital file of said index print.

28. (original) A method according to claim 16 further including the step of verifying the address and credit card number of the customer ordering said image product or service.

29. (currently amended) A method according to claim ~~26~~ 25 wherein the images are scanned in a first location and transferred to a second location for storage.
